## **Three New Edison<sup>®</sup> Fuse Service Kits Cut Contractor Downtime And Reduce Storage Space in Service Trucks**

**ST. LOUIS** – Contractors can save on Edison<sup>®</sup> fuse service kits, when compared to separate fuse prices, and get a professional grade Crescent<sup>®</sup> wire stripper in each bonus kit pack.

Keep your service truck organized. Each of these three fuse kits includes a selection of the most popular fuses in an easy-to-use storage box to find the exact size fuse when needed. Kits include:

Supplemental fuses

- ▪ Midget (MFSK-45)

Branch Circuit fuses

- ▪ Class CC (CCFSK-45)
- ▪ Bullet<sup>®</sup> Class RK5 250/600V fuses (RK5FSK-39)

To order kits contact your local Edison sales representative.

Edison products are manufactured by Cooper Bussmann, a division of Cooper Industries. Cooper Bussmann is headquartered in St. Louis, Missouri, and manufactures and markets circuit protection products globally for the electrical, electronic and automotive industries. Additional information about Edison Fuse Company is available online at: [www.edisonfuse.com](http://www.edisonfuse.com).
