

Cooper Bussmann® Overcurrent Device Recycling Program

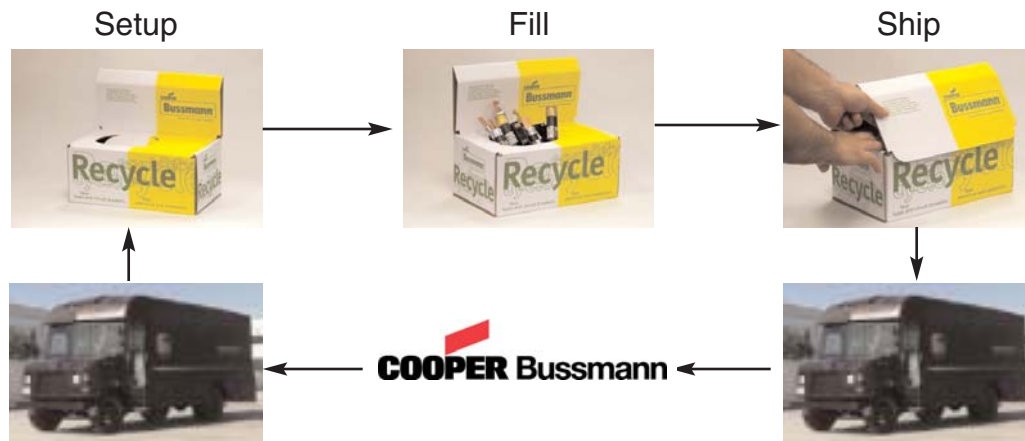

The new Cooper Bussmann® *Overcurrent Device Recycling Program* offers a responsible alternative for the disposal of ANY brand of **fuse, circuit breaker or electrical contactor**. The program is simple to coordinate from any of your branch locations, and provides you with numerous benefits and promotional opportunities that will ultimately help to improve your bottom line.

Eligible Overcurrent Devices for Recycling

Any make, manufacture or model of:

- Fuse
- Circuit breaker, or
- Electrical contactor

How the Program Works

1. Order, setup and place a recycling box in your place of business
2. When box is full, ship off with pre-paid, pre-addressed shipper
3. You'll receive a new recycling box automatically

How to Participate and Order

- Place a purchase order with Cooper Bussmann
 - Part Number: **RECY-1**
 - Cost: One-time fee of \$45.00 for each location (indicate quantity on P.O.)
- Send P.O. via fax directly to (636) 207-4408 – Attn: Don Kennedy
- Provide a list of each ship-to location that is to receive a recycling box (Include for each the contact name, street address, city, state and zip code)
- Large quantity orders will be released in multiple shipments
- Reimbursement available (credit) through your Cooper Bussmann® Market Development Fund.
- For more details, see www.cooperbussmann.com/recycle
